

## POSTER PRESENTATION GUIDELINES

The Enmax Conservatory will be open Wednesday, February 22 at 7:30 am. Please have posters set up and ready no later than 10:40 am on Wednesday morning. Posters will be mounted to the panel using binder clips (no tape). Binder clips will be provided – no need to bring your own. Posters must be removed by end of day Thursday. Posters that are not removed will be disposed of.

Each poster must be no more than **3ft (inches) high x 4 ft (inches) wide**. There will be one poster on each side of the poster board. Poster boards will be numbered according to the assigned number in the poster session portion of the conference program (available at [www.pcesc.ca](http://www.pcesc.ca) at a later date). Please make sure that the title of your poster is the same as that of your abstract, and that you include the names of all contributing authors (even if there are only two spots for authors on the Call for Abstract form).

The main text of the poster should be legible from 2 m (approximately 6.5 feet) away.

Limit your poster to key points that will convey the issue or research question, any methods or plans to address it, the outcomes experienced or expected, and the key take-home messages. Figures, tables, and photos should be used to support or enhance the poster content.

Posters will be available for viewing all day Wednesday and Thursday. Please ensure that you are present to discuss your poster on Wednesday from 4:20-6:00 pm. Do not leave any valuables unattended in the poster space as it will not be locked or supervised during the conference.
